

# Awakening the Sacred Masculine

an initiation for men with Gary Battaglia

Join me for a day of exploration, healing and initiation into the mystical power of the Sacred Masculine. By consciously choosing to surrender the polarizations and limitations of the egoic masculine in favor of a masculine energy that is compassionate, heart-centered and imbued with love, we bring a new level of balance and equanimity into our lives. We discover our true power as men.

In this seminar we will explore and identify: what the Sacred Masculine is and what value it has for our lives; how to access the beauty and power of this benevolent force; the limiting beliefs that block our access to this profound way of being in the world. Using Marriage of Spirit techniques we will process and clear the blocks we have named and offer them to the Divine for balance and integration. Finally, we will journey into the emotional body using the power of evocative music and passive listening to release our deepest levels of holding and resistance.

**Saturday, June 18th, 10am – 4pm**

Presence of Heart Center

864 26th Ave.

San Francisco, CA 94121

**\$90 - call to register at 415-666-3255 (space is limited)**

*please bring a lunch*

Gary Battaglia is a spiritual teacher, mentor, and ordained minister with CoreLight, a spiritual organization founded by awakened teacher Leslie Temple-Thurston to assist others in their own awakening and to foster the awakening of the global heart. He regularly co-facilitates workshops in Marriage of Spirit processing techniques and offers spiritual guidance/counseling sessions by phone, Skype, or in person in San Francisco.
